

We have a comprehensive travel advice clinic. The Travel nurses are here to help you with advice on the necessary precautions you may need to take before your trip abroad. Consult them at least 8 weeks before your departure. You may book an appointment to see them face to face. Unfortunately we do not offer either a telephone or short notice service.

Make sure you have adequate medical insurance. If you are visiting an EEC country you will need an EH1C card which will allow you to receive limited reciprocal health care, dependant on the country being visited. Forms are available from the Post Office.

We can offer the following immunisations (prices available on request)

PRIVATE SERVICES AND CHARGES

Not all services at the practice are available to patients under the NHS. There are four categories of services specified as non-NHS, which are:-

- Private Certificates (Medical) and Private letters
- Reports – Insurance
- Private Medical Examinations
- Specialised Immunisations

These services generally incur a Private fee payable to the practice upon completion.

Upon receipt of such requests, these are passed to the manager's office for costing to ensure our patients receive a consistent quote for the private work to be undertaken.

A list of work undertaken by the practice is overleaf, this also includes our Travel Service.

When setting our charges we refer to the British Medical Association for guidance. We cannot specify a timescale as doctors are required to complete NHS work as priority, however we aim to complete NON-NHS requests in 72 to 96 hours. **We kindly request that patients do not book NHS medical appointments with their doctor to request a private service or request that a private letter be**

completed during a consultation as this affects access to a doctor for patients requiring medical treatment and diagnoses.

Your doctor will make contact and authorise an appointment if they do need to see you face to face in order to complete your private request.
